

We can not afford cable TV and therefore only have local stations at our disposal. Our only local station is WLOS (a Sinclair Broadcasting Co.). For the past several months we have been subjected to Sinclair's biased editorial political comments and blocking of news programs (Ted Kopel) when the subject does not suit them. Now they are preempting local programming to show a politically biased and misleading program. We believe the only local news program available to us is tainted and biased, and we request their license not be renewed.
